

TERM-CSC HANDHELD PROGRAMMING TERMINAL FOR CISCO DEVICES

- Fits to the electronic controlled Cisco amplifiers and optical nodes
- Does not need batteries
- USB port for easy loading the most recent device drivers
- Clean and clear user interface

TECHNICAL SPECIFICATIONS

General parameters

Powering voltage [V DC]	24
Maximal current consumption [mA]	10
Maximal data speed [baud]	38400
Connector type (data and power)	2,5 mm jack male
Temperature range [°C]	0...+50
Cable length [m]	1.5
Dimensions [mm]	165x80x30
Weight [kg]	0.21
